#### **Kittitas County Invites Residents to Help Shape County Communications**

Kittitas County is inviting residents, businesses, and community partners to participate in the Kittitas County Communication Survey. The survey will help guide how the County shares information with the public.

The survey asks community members what information they need most, how they prefer to receive County updates, and how accessible and useful current communication channels are.

“Clear, timely, and accessible communication is essential to effective local government,” said Brett Wachsmith, Kittitas County Commissioner. “We encourage everyone in Kittitas County to take a few minutes to share how they want to hear from us. Feedback will help us better serve every community across the county.”

Residents can complete the survey online at [https://kittitas.qualtrics.com/jfe/form/SV\\_eb2l33mJ8yB7sEK?Q\\_CHL=qr](https://kittitas.qualtrics.com/jfe/form/SV_eb2l33mJ8yB7sEK?Q_CHL=qr) . The survey is available through September 28, 2026.

Community members are encouraged to share the survey with friends, family, neighbors, and local organizations to help ensure the County hears from a broad range of perspectives.
